Guide Books

Boreal Forest Bounty is a guide to 30 non-timber boreal plants with market potential through value-added processing. Each profile includes detailed information on species descriptions, commercial uses, First Nations' uses, environmental sensitivity, markets and prices, cultivation and harvesting, processing technology, and regulations. Copies are \$30 plus applicable taxes, shipping and handling and can be ordered from www.trafford.com/06-3185

The Birch Syrup Production Manual is the first of its kind in Canada. The manual is a comprehensive overview of the birch syrup industry and includes sections on tree identification, sugar bush management, tapping guidelines, syrup processing and packaging, marketing and food safety. Copies can be purchased from the Quesnel Community and Economic Development Corporation for \$40 plus taxes, shipping and handling. Please contact: April Cheng at (250) 992-3522.
